HSIA

Whatever your guest's connectivity needs..
we have the solution to truly enhance your guest's stay.

Our innovative connectivity products are designed specifically for the hotel guest room, helping your guests make the most of their portable devices during their stay.

Today's guests check-in with many portable devices and they want to use them. They want to watch their own TV shows and movies, play their own games, and listen to their own music. They want easy-to-find and easy-to-use methods for connecting to the Internet, as well as fast and convenient ways to recharge all those electronics.

MediaHub™ Mini

The smallest and most powerful mobile device to TV connectivity panel on the market today. Providing guests with the most important, and universally accepted mobile connections to charge and play (USB, Bluetooth, and HDMI).

MediaHub Mini offers USB fast-charging for any mobile devices. Bluetooth pairing means that your guests can listen to their music over the TV speakers without docking the phone, providing the freedom to roam and multi-task. HDMI is the universal method for connecting mobile phones, tablets, laptops, cameras, and gaming consoles to HDTV's.

Guests can play content from their portable devices on the in-room TV.

- Flush Mounts into wide range of furnishings, millwork, caseworks, and partition walls
- 2.1 Amp, 5 Volt USB charge port for tablets and smart phones
- Standard 0.5 Amp, 5 Volt USB charge port for simultaneously charging additional phone or accessory
- Bluetooth pairing point for wireless audio playback on the TV speakers
- Aux-in audio jack for audio playback on the TV speakers
- HDMI port for displaying your movies, videos and photos on the in-room TV
- Automatic Input switching via HDMI-CEC for any CEC enabled TV (Automatic Input switching for older displays using optional RS232 cable)
- Small footprint and choice of rubberised black or brushed aluminium finish, provide designer friendly aesthetics
- Simple Installation - Power Supply and 3.5m HDMI cable included

TA-3350 | MediaHub™ Mini

The MediaHub Mini provides high current 2.1 Amp USB charging, HDMI video and Bluetooth pairing point for wireless music playing. All the connectivity your guests need in a most simple and compact design. Available in a choice of beautiful finishes, brushed aluminium, all white and rubberised black. Compact and stylish, the MediaHub Mini is designed to fit any hotel room decor.

*Auto-Switching, CEC

Guests require reliable Wi-Fi or easy-to-find access points.

DeskPoint Pro™ provides wireless and wired Internet

We offer a wide range of wired and wireless solutions that sit on a table or desktop. The DeskPoint Pro is an easy to implement wireless solution:

- Avoid full renovation and re-wiring of a new Internet infrastructure
- Offer complete Wi-Fi coverage despite challenging property constructions (such as concrete, steel, etc.)
- Fill the most common problem of weak or dead spots in existing wireless coverage
- Provide Wi-Fi with simple remote-manageability

Supports up to 5 SSIDs per AP and 7 VLANs

DeskPoint Pro supports up to 5 applications or user groups per AP for guest-facing and back-of-house network needs.

USB charging for mobile phones and other portable electronics.

TA-6950C | DeskPoint Pro™

Add retractable DeskPoint Pro into an existing wired Internet AP to provide wall-to-wall wireless Internet. By avoiding costly re-wiring or renovation it is the easiest, most affordable way to add Wi-Fi to your property, or to fill weak or dead spots in an existing Wi-Fi network.

*Retractable cable
Wall-to-Wall Wi-Fi
B/G/N support
Multiple SSIDS*

TA-7950C | DeskPoint Pro RJ45™

Plug DeskPoint Pro into an existing wired Internet AP to provide wall-to-wall wireless Internet. The TA-7950 provides an RJ45 socket for an accessible wired connection point.

*RJ45 port
Wall-to-Wall Wi-Fi
B/G/N support
Multiple SSIDS*

TA-8050C | DeskPoint Pro Under Desk™

Looking for a more hidden option for providing Wi-Fi for your guests? The Under Desk model has all the same DeskPoint Pro wireless AP functionality in a compact casing designed to mount under a desk or workstation. This can be used with a desktop wired Internet product to provide a complete Internet offering. Internal dual antennae protected against tampering / breakage.

*Dual antennae
Wall-to-Wall Wi-Fi
B/G/N support
Multiple SSIDS
Wired AP*

Wired Internet

A range of attractive and easy to find Internet access points to present the wired Internet cable, keeping the desk tidy and the Internet access close to hand.

Provide attractive and easy-to-find Internet points... pull-through or retractable.

TA-7300 | Pull-Through Pro™

An elegant, low-profile solution to providing guests with an easy-to-find Internet access point. Weighted to stay in place this product can be silk-screened with your property's logo. Different colours are available for base and cap.
